

Maximize the effectiveness of your flat panel monitors

Product Sheet

Above: Monitor bracket section is attached to back of flat panel monitor; the other half is attached to the wall.
Right: The FX Series is shown attached to the wall behind the monitor.

Ergotron® ARMS

FX Series

Features

- Places monitor less than 1" from wall
- Quick-release lever allows monitor to be removed or fastened to wall instantly
- Solid and stable platform for touch-screen monitor compatibility
- Weight capacity of up to 30 lbs (13.6 kgs)
- Video Electronics Standards Association (VESA®) FPMPMI™ compliant for 75 mm or 100 mm Mounting Interface Standard
- Steel construction with a durable black zinc finish for long-lasting durability
- FX Series products can be attached to any sturdy vertical surface such as machines, walls, cabinets, etc.
- Keyboard and Mouse Holder accessory options available
- LIFETIME warranty

The FX Series (Fixed) products allow a flat panel monitor to be mounted to a vertical surface much like hanging a picture on a wall. Once installed, these modules provide a rock-solid platform, even for monitors with touch-screen capability. To remove a monitor from the wall, the user simply moves the release-lever to the side and lifts off the monitor. Reinstallation is just as easy!

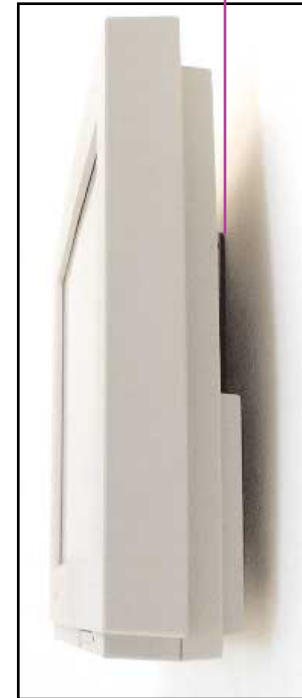

Create a computer workstation in a small area.

System places monitor only .77" (20 mm) from wall for an extremely low profile

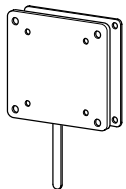

Unit includes a quick-release lever for easy removal and attachment of monitor

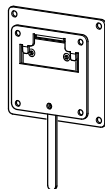

Mounts directly to surface, (fasteners for mounting unit to wall are customer supplied)

VESA® FPM PMI™ 75 mm and 100 mm Standard Interface Plate attaches directly to the back of compliant flat panel monitors (custom interface plates are available for non-VESA compliant monitors)

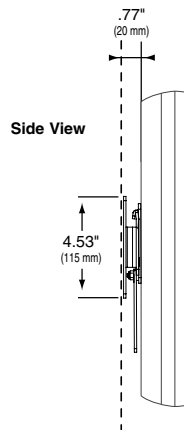

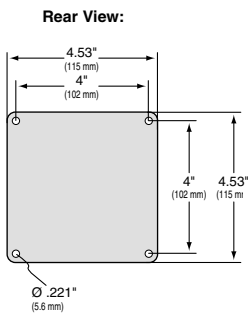

FX-30 Wall Mount,
